

### REMARKS

Enclosed is a Declaration Under Rule § 132 by the inventor. It discusses the differences between an embodiment of Applicant's invention disclosed in the application and the disclosure and teachings of the two primary cited references against Applicant's claims, namely the Norman and Fogarty references.

Additionally, enclosed with the Declaration are demonstrative exhibits to assist in evaluation of Applicant's claimed invention versus those two primary references.

It is respectfully submitted these materials corroborate the arguments submitted with respect to patentability of the Applicant's claims. In particular, it shows and allows the Examiner to actually see how the claim limitations in Applicant's claims describe an invention which patentably differentiates from the Norman and Fogarty references.

Entry and consideration of these materials is respectfully requested.

### **C. Conclusion**

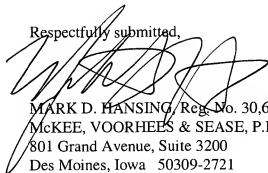

It is respectfully submitted that all matters raised in the Final Rejection have been addressed and remedied and that the claims are in form for allowance.

No fees or extensions of time are believed to be due in connection with this amendment; however, consider this a request for any extension inadvertently omitted, and charge any additional fees to Deposit Account No. 26-0084.

If this response does not result in a Notice of Allowance, the undersigned respectfully requests the courtesy of a telephone interview with the Examiner prior to the issuance of any further action or advisory action.

Reconsideration and allowance is respectfully requested.

Respectfully submitted,

MARK D. HANSING, Reg. No. 30,643
